

Specialty Hinges

Certain doors, cabinets, and aspects of the home have specific needs that ordinary hinges do not fulfill. Our specialty hinges, cast of solid brass, meet these expectations. Attractive, smooth and elegant not only compliment a solid wood door, but they provide the precise fit. Within our large selection of specialty hardware are durable, stylistically versatile hinges for specific functions or period looks. Choose from clock and box options, drop-leaf hardware for tables and desks; strong, locking Butler hinges for trays and card tables; and Mackintosh and Arts & Crafts styles. A choice of five finishes are available for most specialty hinges.

H-500 Extruded Brass Drop Leaf Hinge

Bed Bolt Covers

Bed bolt covers hide the holes where the bed bolts enter the bed posts, and do so in a beautiful way. Beds need tightening periodically, and the cover can be swung up and the bolt exposed for tightening.

See the rest of the hardware and finishes online at
www.borton-brasses.com/trunkcorners.asp*

Working from his shop in Ohio, Darryl makes our specialty iron trunk hardware. Copied from hardware found on his own collection of antique trunks, these authentic pieces are beautifully fabricated from $\frac{1}{16}$ " thick brass and iron. These are high quality reproductions suitable for campaign furniture, captain's chest, steamer trunks, blanket chests, and jewelry boxes. These are not the thin stampings found elsewhere.

Table Hardware

Tables, no matter if you are repairing existing furniture, refurbishing a reproduction piece, or designing one from scratch, require support for certain uses. Our table hardware approaches this from several angles, from the base to the tabletop to any drop leaves. Table hardware is installed underneath or on the base, and all provide excellent and efficient reinforcement and stability.

Cup Casters

Not just a functional component of furniture, casters are a stylish and attractive addition to the base of a table, chair, or sofa and even modernized antique reproduction furniture, without appearing anachronistic. A choice of finishes, as well as shapes, allows you to achieve the perfect blend between the furniture and hardware. These casters are made in England, finished by hand in the USA.

Rosette

Rosette pulls have been used by furniture makers for centuries. Never wrong and always elegant, they often work where nothing else does. These smooth cast brass handles, with rounded back plates, have been a furniture staple since the 18th century and are a perfect complement to antique reproduction pieces. For finding the right match we offer a choice of light, dark, and bright finishes for each shape.

CHOOSE MOUNTING METHOD

Rosette pulls come with an authentic post and nut fitting (1 1/4" long). We also make a machine screw fitting (MSF) for most drawer pulls. With a MSF, you will not have a nut and post on the inside of the drawer. Please specify MSF when you order. If your wood is 1" or thicker, order the MSF and tell us your wood thickness so we can provide longer screws.

William & Mary / Queen Anne

Some of the earliest American hardware, Queen Anne drawer pulls are faithfully based on period patterns. The romantic, elegant, and elaborate style, reflective of architectural components from the late 17th century through the 18th century, is captured by each pull, enhanced by a choice of light and dark finishes.

Each pull is crafted by hand. Chasing elements are manually stamped with a hand-made punch. Each pull is stylistically unique, as a result. As you modify a set of drawers with these classic pulls and escutcheons, choose from multiple styles and sizes from our selection.

Chippendale

Chippendale architectural facets ornately detail each solid brass drawer pull. Featuring a back plate, two posts, and a bail, Chippendale pulls are a confluence of rococo and neoclassical features, deep carvings, angular arches, and lattice work, enhanced with florid details. Our extensive line of Chippendale drawer plates keeps period details intact and offers intricacies rarely found in present architecture and decor. A smooth, elegant handle has a pleasant feel, while the sturdy backplate holds up through years of repeated use.

Hepplewhite

George Hepplewhite was a remarkable English furniture maker. His light, airy designs changed the direction of furniture making. American furniture makers quickly adopted his ideas and added exquisite inlays and veneering to their designs. Delicate oval brasses were central to the completion of a piece. The patterns we use today are exact copies of antique American originals—the themes are very much in keeping with the birth of our nation. You will see eagles, revolutionary themes like cannons and flags, and harvest motifs like wheat and fruit, representing the bounty of the New World.
